

Ai Modules

# Notepad

<b>section</b>	Text
<b>short description</b>	stores and displays text for various purposes.
<b>licence level</b>	Anjuna
<b>ports</b>	IOut [text]
<b>parameter</b>	Text [textarea] - input your text here.
<b>skins</b>	./.

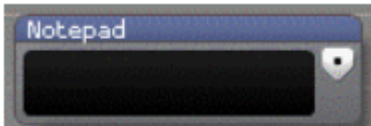

This module is frequently used to leave notes/messages in the patch.

## used in example

- [Artnet Video Switch](#)
- [Javascript Multiline Text](#)
- [Simple Javascript Patch](#)
- [Midi Layer Select](#)
- [Moving Screens](#)

## Manual

Outputs a string containing the text from the text field - also useful for leaving notes in a patch.
