

Downloads and more

After migrating the former website several times it is now time to integrate the available downloads here. This will take a few days to have all programs and infos here. At the moment these items are available:

Avolites Fixture Finder - search fixtures by channel definitions

Titan Switch - toggle Titan PC Suite between versions in seconds

Titan Reset - reset Titan settings to factory defaults, e.g. when the drawing board/virtual keyboard doesn't appear

Titan English - toggle Titan's GUI language to english on non-english windows computers

Handbücher/Manuals - deutsche Handbücher

Midi To Web - translate USB-MIDI calls to Web API requests

Midi Fix - fix for an issue where a Windows update made MIDI not work any more

Web API Demo - first demo for the Titan Web API

Avolites Personality Sammlung - early collection of personalities specifically made for customers

TitanOne Keys - control TitanOne with the keyboard

Avolites Showfile Parser - an early tool to parse showfiles in order to extract patch information and more

Informationen und Links - Newsletter, Social Media, Foren etc.

Videos - some videos in order to get you started with Titan

AI-Projekte - - some interesting AI projects
