2025/11/20 03:56 1/2 Palette - Set Master Overlap

Example

Palette - Set Master Overlap

by:	in factory macros
description:	sets palette master overlap
remarks:	listed here as example for active binding

palette, master, overlap, busking

functions

ActionScript.SetProperty.Float

affected properties

• Palette.MasterOverlap

specials

Active Binding

Code

This is part of the factory macros. Palette Master Overlap and Palette Master Fade Times macros have been extracted and put in this file:

macro_overlap.xml

Explanation

This macro sets the property Palette.MasterOverlap to 0.5. To do so manually you'd press <Palette> [Master Overlap =] and enter a value.

How to use it

make this macro available

It might be useful for busking to put some of the related macros, e.g. Overlap 100%/50%/0% on adjacent handles. Due to active binding they show which value overlap is currently set to.
