

Handles.Macros.PreviousPage

ASSUMPTION

This function is not documented and simply found by trying. Hence, this entire documentation is assumed.

```
Void Handles.Macros.PreviousPage()
```

| | |
|---------------------|---|
| API | no |
| description | toggles the Macros buttons to the previous page |
| Namespaces | Handles.Macros |
| parameter | |
| return value | (Void) |

This function does not fully work as Avolites never intended these buttons to be paged. `Handles.Macros.PreviousPage()` decrements as expected - but you can go down to page 0 which probably isn't intended.

Example in

[changemacropage:](#)

```
<macro id="Avolites.Macros.PreviousMacrosPage" name="Static Macros Page -1">
  <description>Goes to the previous macros page.</description>
  <sequence>
    <step>Handles.Macros.PreviousPage()</step>
  </sequence>
</macro>
```

Also used in

- [Pages - Change Macros Page](#)
- [Function list](#)
