

Namespace

Timecode.TimecodeThree

Namespaces are not listed nor explained in the online API documentation. Hence, the description is merely guessed.

Nowadays there are four timecodes available in Titan, and identical functions and properties are available for [Timecode.TimecodeOne](#), [Timecode.TimecodeTwo](#), [Timecode.TimecodeThree](#) and [Timecode.TimecodeFour](#).

Functions and properties related to Timecode 3.

As these are identical to those in the namespace [Timecode.TimecodeOne](#) please look there for properties and functions.
