

Titan Property

# Palette.StorePaletteMode

<b>API</b>	<a href="http://api.avolites.com/11.0/Palette.StorePaletteMode.html">http://api.avolites.com/11.0/Palette.StorePaletteMode.html</a>
<b>description</b>	Should the next palette stored be stored as a shared palette?
<b>Namespaces</b>	Palette
<b>type</b>	Enum 0, 1, 2 (normal, shared, global) - the actual values have not yet been verified, see link below

see also <http://forum.avolites.com/viewtopic.php?f=20&t=5992>

The type of the property is an enumeration so you should either use the Math.ToEnum function to create the value or better still just use `ActionScript.SetProperty.Enum`.

### example

```
ActionScript.SetProperty.Enum("Palette.StorePaletteMode", "Normal")
```
