Titan Property

PlaybackGroups.CurrentPlaybackGroup

API	https://api.avolites.com/15.0/api/PlaybackGroups.CurrentPlaybackGroup.html
description	The currently selected playback group.
Namespaces	PlaybackGroups
type	Handle (playback group handle)

example

```
<step>PlaybackGroups.SetCurrentPlaybackGroupFromUserNumber(2)</step>
<step>PlaybackGroups.AddPlaybacksToGroup(PlaybackGroups.CurrentPlaybackGroup
, "cueHandleUN=3")</step>
```

In the first step playback group #2 is made current.

In the second step this is been added a playback.

used in

- Playback Groups - Create and Add
- PlaybackGroups.SetCurrentPlaybackGroupFromUserNumber
