# PlaybackGroups.CurrentPlaybackGroup

<b>API</b>	<a href="https://api.avolites.com/15.0/api/PlaybackGroups.CurrentPlaybackGroup.html">https://api.avolites.com/15.0/api/PlaybackGroups.CurrentPlaybackGroup.html</a>
<b>description</b>	The currently selected playback group.
<b>Namespaces</b>	<a href="#">PlaybackGroups</a>
<b>type</b>	<a href="#">Handle</a> (playback group handle)

## example

```
<step>PlaybackGroups.SetCurrentPlaybackGroupFromUserNumber(2)</step>  
<step>PlaybackGroups.AddPlaybacksToGroup(PlaybackGroups.CurrentPlaybackGroup  
, "cueHandleUN=3")</step>
```

In the first step playback group #2 is made current.

In the second step this is been added a playback.

## used in

- [Playback Groups - Create and Add](#)
- [PlaybackGroups.SetCurrentPlaybackGroupFromUserNumber](#)
