

Titan Property

Windows.windowId.FixedColumns

API	./.
description	number of button columns the window is supposed to show
Namespaces	Windows.windowId
type	Int32

Strictly this is an element of the respective window.

windowId refers to the workspace window as explained in [Windows](#). This means there are properties like `Windows.Playbacks.FixedColumns`, `Windows.Colours.FixedColumns` and more

example

```
<step>ActionScript.SetProperty.Integer("Windows.Playbacks.FixedColumns",  
12)</step>
```

This sets the playbacks window to always show 12 button columns.

used in

- [Attribute Wheels And Palette Windows](#)
- [Create Workspaces](#)
- [Windows.windowId.ButtonSize](#)
